

CHM1090Y Biological Chemistry Seminar

Course Outline

2017-18

Course coordinator:

Prof. Andrew Woolley (awoolley@chem.utoronto.ca)

Course Description: The biological chemistry seminar series provides graduate students with the opportunity to learn about a wide range of biological chemistry topics as well as to get practice giving talks to a broad audience of peers. All biological chemistry students are required to attend the grad student seminar series (this is a PASS/FAIL course and attendance is taken). Students in their second year are required to give a seminar on a topic other than their own research, at a level suitable for a grad level course. Students in their 4th year are required to give a talk on their own research. Depending on time-slot availability, the seminar series may also serve as a forum for MSc students to present their exit seminar (typically in year 2 of their program).

This year we will hold grad student seminars on two dates (see schedule below). These will be whole day affairs with a lunch break. Talks will be 30 min (25 + 5 for questions)

07-DEC-17 held in LM 161 from 9:00 16:00 (Lash Miller Chemical Labs)

10-10:30	Adam Forman
10:30-11	Ji Sung Park
11-11:30	Max Weissman
11:30-12	Yasir Raouf

Lunch

1:30-2	Zachary Morrison
2-2:30	Hanlin Liu
2:30-3	Daniel Lee
3-3:30	Ryan Correa

23-FEB-18 held in LM 158 from 9:00 16:00 (Lash Miller Chemical Labs)

10-10:30	Ryan Woloschuk
10:30-11	Aaron Cabral
11-11:30	Fettah Erdogan
11:30-12	John Israelian

Lunch

1:30-2	Jaewan Jang
2-2:30	Pim Manaswiyoungkul
2:30-3	Kamalpreet Singh
3-3:30	Henry Tieu

Course Evaluation: Students will be evaluated on a pass or fail basis. This evaluation is determined based on student participation in seminars. All graduate students are required to attend seminars regularly and ask questions (this applies to all years). The course coordinator will monitor attendance and participation by graduate students.
